Membership Introduction and Updates – Sandra introduced the new members of OASAC, June Benedick – Parish Nurse replacing Joyce Gusewelle; Jennifer Belkov –Alzheimer’s disease and Related Dementias representative replacing Beverly Kimmons; Samantha Olds – Primary Care Service Provider replacing Frederick Bernstein; Andy Chusid – Nursing Home or Licensed Assisted Living Establishment replacing Pat Comstock.

Executive Meeting Update and Discussion

Sandra and Phyllis provided an overview of the planning process that the Executive Committee engaged in during their January meeting. As part of the process, the Executive Committee reviewed the major goals/objectives established for OASAC in 2010, the guiding principles of IDoA, and the key rebalancing initiatives currently underway in Illinois. The Executive Committee drafted three documents for the full OASAC committee's consideration.

1. Key rebalancing initiatives that will be the primary focus of OASAC during the coming 2-years.
2. Recommendations for a stakeholder engagement process
3. Development of key questions to guide the State as they are planning and implementing long term care rebalancing initiatives.

OASAC members made a number of suggestions to the draft documents, which will be summarized and disseminated to State agencies and posted to the OASAC web pages.

Director Holton discussed that it is critical for the public to organize and provide greater input to have an impact on the healthcare reform being proposed because the state is rapidly changing and well designed implemented feedback will be part of the review process for the 1115 Waiver.

1115 Waiver Discussion

Director Holton, Michael Gelder, and Sandra Alexander provided an overview of the 1115 Waiver and responded to questions from OASAC. The 1115 provides Illinois the best chance to move forward and get the funding that is needed to put commitments and goals related to rebalancing into practice. The 1115 Waiver will redesign the way services are provided in IL. IL still needs to demonstrate to CMS investments in the waiver will be cost neutral and lower our anticipated costs over the next 5 years. We have to make sure that the programs we utilize under the 1115 Waiver support this claim.

It is anticipated that the waiver will be submitted in early March. Stakeholder meetings have taken place and information has been shared to try to make the process of the 1115 Waiver as open and transparent as possible. Information has also been posted on the HFS website.

Workgroups will be formed around each of the four pathways outlined in the waiver. IDoA will look for input to experts on OASAC and other advisory groups to help with this function. It will help to think beyond personal interests and move forward to the view of how we can help the older adults.

The meeting was adjourned at 3:12pm
